Welcome!

First, we would like to thank each and every one of our customers for their continued support and loyalty to our program. We manage our cowherd like a business and not a hobby. For 4 generations we have been focusing on traits that matter to enhance your profitability. We are careful to pay attention to structure, disposition, hair, fertility, growth, carcass, and calving ease. If you are in the need for calving ease and maternal, we got it. If you are in the need for power, pounds and terminal, we got it.

We are excited to announce that this year's sale offering will be our largest to date. We will sell 185 high quality bulls, 125 open heifers, and 100 bred females. The growing and continuing demand for Sim-genetics is unbelievable. Last year, Superior Livestock reported that Simmental influenced cattle were their high selling lots of all breeds. There is a reason for that. Simmental genetics are flat out working and dominating in the cow herd as well as the feed yard.

We look forward to having you here for our 16th Annual Sale at the farm on November 13th. As always you are welcome to come by and view the animals anytime. If you are unable to make it to the sale, please give us a call. We would love to assist with your next purchase, and we will guarantee you will be more than satisfied.
