

# GF 2023 SEMEN GUIDE

FOCUSING ON *traits* THAT *enhance* YOUR PROFITABILITY *Since 1961*

# SEMEN GUIDE

*Since 1961.*

Welcome! This year we decided to do something different and offer you an insight into our program with a "semen guide." Whether you AI a lot of cows, or just like to learn and see where our program is going, we feel as if this catalog will be very beneficial to you and your operation. Each year we travel and view many operations to see how our genetics compare and also search for the newest and greatest genetics we can find. We insure you that if you see a bull with the "Gibbs Farms" name attached to it, that we have personally seen the bull and have great confidence in him. Please call us for any questions!

*Wendell, Nan, and the entire Gibbs Farms crew*

## TO ORDER SEMEN, CONTACT:

Doug Gibbs 404-717-2264

Bradley Gibbs 404-904-2914

## SEMEN AVAILABILITY

Semen location and availability may vary. Volume discounts are available!

Bulls co-owned with ABS, Select Sires, and Genex are only available through them and their representatives.

- The \$30,000 high selling bull from Cow Camp Ranch. Lay a solid foundation to your herd with BEDROCK. He is a rare heifer bull that will add scrotal size and body mass. It is rare to find a heifer bull with this much power and mass. He is a bull that we are extremely excited about and plan to use heavily this breeding season. In our opinion he is definitely the best SimAngus heifer bull to sale of the entire 2023 sale season.
- Co-owned with ABS and ALL BEEF.

- The \$27,000-second-high selling bull from Cow Camp Ranch. When we went out west looking for new genetics, we were in search for a power bull and a calving ease bull. Admittedly, we noticed Bedrock pretty easy and overlooked Fire Power in the catalog. When we got there and first saw Fire Power we quickly said, "what is he" and "we have to own this bull." Fire power blew us away with his overall look and build. He is a bull that could probably win any show in the country. Uniquely he has about as much marbling, bone, and growth out of any power bull we have seen as well. We are extremely excited about this young sire's potential and can't wait to mate him to a lot of cows soon!
- Co-owned with Trauernicht Simmentals.

- Recently deceased, Enhancement is a bull that deserves some serious attention. One of the highest MARB and API proclamation sons out there. His first calves are on the ground here and we are sick that we do not have more of them. They are STAND OUTS! We have a bunch of them on the way and we feel you will just as excited about them as we are. Limited semen, so get it while you can!
- Co-owned with Select Sires.

- The ultimate outcross blazed face bull with the most eye appeal out of any we have ever seen. Unique pedigree with no BEACON, COWBOY CUT, WIDE RANGE or the C4 cow. The \$27,000 high selling bull from the 2022 Lazy C Diamond sale and we thought it was a steal! Reserve will add depth of body, muscle expression and style like no other. We are extremely excited about this bull's potential!
- Co-owned with Genex and ALL BEEF.

LCDR MS CHLOE 55C Maternal grandam of Reserve.

HHS MISS 836Z Paternal grandam of Reserve.

## MORE PER HEAD PERIOD

EFFECT OF SIRE BREED ON SALE PRICE OF BEEF STEER CALVES  
Superior Livestock Auction, Summer 2020\*

SimAngus™-sired steer calves sold through Superior Livestock Auction in summer 2020 earned **more at sale** time than all other calves<sup>2</sup>

It's no wonder the percentage of SimAngus™ calves marketed through the industry's largest video auction has grown **eightfold** since 2010.

Want low-risk, high-potential calves with earning potential?

## STAND STRONG SIMMENTAL

406-587-4531 • [simmental.org](http://simmental.org)

\* For lots of 50 head or more. \* Kansas State University, December 2020, Superior Livestock Auction data analysis of 3,280 lots, 394,900 head of beef calves marketed during summer 2020. (P<.0001)  
† Lots that qualified for breed-related programs were excluded from the model due to potential confounding effects with sire breed analysis and, for many, few lots in the data.  
‡ Means without a common superscript differ (P<.05). Lots of calves in breed-identified groups were sired by bulls from the respective breeds and out of dams with no Brahman influence.
